[ITS Newsletter Archives](#)

Information Technology Services' series of monthly emails to all employees aimed at improving communications with campus about tips, information, technology updates and services offered in ITS.

End of Semester & Fall Planning

As we get ready to conclude spring semester and start thinking about next fall, ITS has a few reminders to share:

- If you borrowed technology equipment from HuskyTech and will not be working at SCSU over summer, please return the equipment so we can complete necessary upgrades.

- If you need software for fall semester, please contact your technician as soon as possible.

- Be sure to test links in your electronic materials such as syllabi, D2L courses, webpages, etc. and update links as needed. As a reminder, the knowledge base moved to [TeamDynamix](#), so any links to the old knowledge base will need to be updated.

- Continue to [let us know of any technology problems](#) you experience at SCSU. It is never too early to report an issue.

New Features for Virtual Meetings

Zoom and Microsoft Teams have announced new meeting customization features:

- In Zoom, you can now restrict a Zoom meeting to only allow access to those with a StarID. For more information, see [Minnesota State's article about this new feature](#) (log in with StarID credentials to view article).

- When using the Microsoft Teams Outlook add-in, you can now customize Teams meeting settings such as enabling/disabling chat, presentation capabilities and more. For more information, see the [Microsoft documentation about this feature](#).

IT Security Tip: Stay Cybersafe When Traveling

With travel restrictions loosening and vaccination rates increasing, many people are starting to make plans to travel again. Travel can leave us more vulnerable to cyberattacks, so we recommend checking out Forbes' Nine Steps to Ensure Cybersecurity While Traveling article for advice on staying cybersafe when traveling.

Thank You & Have a Great Summer

The past year has brought unprecedented need and opportunity to partner in supporting our students, faculty and staff. We are extremely grateful to our campus community for tremendous collaboration, encouragement and grace. We wish you all an incredible and safe summer!

Contact HuskyTech for technical services, support and sales.
