

Lewis R. Royer Award for Quality & Excellence

This award will be granted annually to students majoring or minoring in the Department of Environmental and Technological Studies at St. Cloud State University.

A team of experts identified by the Department of Environmental and Technological Studies will serve as a panel of judges to identify each award recipient. All students wishing to be considered for the award will submit class projects that best exemplify the traits of quality and excellence to be placed in competition with those projects submitted by others. The term “quality and excellence” will be applied in its broadest sense to include curriculum design, written papers, and two-dimensional and three-dimensional laboratory activities.

Should the panel of judges determine that no entry is deserving of the Lewis R. Royer Award for Quality/Excellence for a given year, the monies associated with that decision will revert to the funding base from which the award is drawn.

**Applications will be available from the Office Manager of the
ETS Department in HH-216.**

Lewis R. Royer Award for Quality and Excellence

Application Form

Date: _____

Note: The care and accuracy with which this application is completed will directly affect the judges' decision in making the award.

Name:

Year in college:

Address:

Declared ETS Major or Minor: Yes: _____ No: _____
