

Career Information for Global Studies

A College of Social Sciences Major

General Overview Information

The Global Studies major prepares the individual to work in fields that require knowledge of international relations. Through both theoretical and applied learning, students gain understanding of the behaviors and interactions between nations, states, international organizations, regimes, and other collective bodies that organize people of the world. The program focuses on building the student's awareness of cultural diversity and interactions within the global society through cross-disciplinary study in fields including economics, political science, history, and more.

Do You Have These Characteristics?

Awareness of International Politics, Economics, Geography & Culture • Analytical Mind
Foreign Language Proficiency • Multicultural Competence • Interest in Studying Abroad
Effective Researcher • Excellent Oral and Written Communication Skills
