ABOUT THE WORKSHOP

The workshop is an intensive training to understand and analyze systemic racism. A common definition will be explored. Each manifestation of racism - individual, institutional, and cultural - will be examined, along with their effects on both communities of color and white communities. The issue of systemic racism and the task of dismantling racism will be viewed from political and social perspectives, with the goal of equipping people to effectively address racism within their institutions and in the larger society. Participants will strengthen their capacities for effective organizing and action to dismantle systemic racism and build authentic multicultural diversity.

Because of the sequential process of the presentations and sessions, **FULL-TIME ATTENDANCE FOR ALL THREE DAYS IS EXPECTED FROM ALL PARTICIPANTS.**

THE WORKSHOP SETTING

The Workshop is conducted in an atmosphere of mutual respect, caring and safety, and is not based on confrontation, guilt and judgment.

WHO SHOULD COME

The training is open to all interested persons, especially leaders who have responsibility for cultural diversity or social justice agendas in public, educational and other community-based organizations. This workshop is facilitated by MCARI.
