

Roadside Inspection:

The purpose of this approximately three hour course is to review a **roadside inspection of vehicles weighing 10,000 pounds or more**. This class builds on Intro to CTOT and is presented using a detailed, in-depth presentation, addressing all aspects of a roadside inspection.

Topics include:

- Point by point inspection of the truck
- Explanation of CVSA decals
- Out of service items
- Driver's paperwork
- Explanation of citations
- Safer Stat Record
