

If you are studying/traveling abroad you should consider making an appointment with one of the Student Health Services highly qualified providers to discuss various pre-travel vaccinations and health care concerns. It is as easy as 1-2-3.

1. Schedule your travel visit at least 4-6 weeks before departure (to allow appropriate timing of vaccinations). Call 320-308-3193 to schedule an appointment.
2. Check out the Centers for Disease Control (CDC) website for information/requirements for your destinations at <http://www.cdc.gov/travel/> so you can educate yourself about possible health concerns/alerts. Print this out and bring it to your appointment.
3. Bring the following information with you to your appointment
 - * CDC information (from #2 above)
 - *Immunization Record
 - *Itinerary and activities
 - *List of current medications, if any
 - *Completed Travel Health Clinic Registration Form (<http://www.stcloudstate.edu/healthservices/>) under Information & Forms

****** Don't wait till it is too late, call 320-308-3193 to schedule your consult******

Note: Some insurance do not cover costs associated with travel vaccines, medicines, etc. We would advise you to contact your insurance carrier (contact the “customer service” phone number provided on the back of your insurance card) to inquire about costs and coverage of vaccinations.
