

Donated snowmobiles used for advanced training at MHSC

Six new snowmobiles are flying along the training trails at the 160-acre SCSU Minnesota Highway Safety Center (MHSC).

The new sleds were donated by Bee Line Sports Center in cooperation with Yamaha Motor Corporation, represented by Jeff Patterson (pictured, right).

Extending thanks are College of Education Dean Joane W. McKay and MHSC Assistant Professor Bill Ruhr.

MHSC is using the sleds for advanced training of recreational snowmobile operators, as well as law enforcement officers and emergency rescue personnel who use the off-highway vehicles in their work.
