St. Cloud company invests in it's employees -- Hundreds of employees at Electrolux in St. Cloud are receiving training thanks to a state grant. A 100-thousand dollar Minnesota Job Skills Partnership grant was awarded to St. Cloud State University to fund the training of 680 Electrolux workers. Job Skills Partnership Executive Director Rick Caligiuri says the training will improve workers skills to help them remain competitive. Caligiuri says the training will take place in a former Frigidaire plant. The 100-thousand dollar state grant was matched by a 160-thousand dollar grant from Electrolux.
