## About us

Twitter is a privately funded startup with offices in the SoMA neighborhood of San Francisco, CA.

Started as a side project in March of 2006, Twitter has grown into a real-time short messaging

service that works over multiple networks and devices.

In countries all around the world, people follow the sources most relevant to them and access information via Twitter as it happens—from breaking world news to updates from friends. [See what people are doing right now.](#)
