ADMISSION AS A FRESHMAN

St. Cloud State University strives to provide an academic and campus environment that prepares our students to succeed and thrive in a global, multicultural world. As part of our overall mission, we are committed to enrolling an academically qualified, diverse student body. For that reason, each application is individually reviewed and evaluated on its own merits.

Students will be considered for admission using a combination of high school rank, GPA, curriculum, test scores and other indicators of academic performance and potential.

- * The academic record is most important. The committee will give the greatest weight to performance in college preparation classes.
- * The strength of a student's curriculum is also a major consideration.
- * ACT or SAT scores will be considered.
- * Other criteria that may be considered are extra-curricular and community activities, school profile, and grade trends.
- * Personal statements and recommendations are optional, but will be considered when submitted.

Most successful applicants will:

- * Be ranked in the upper one-half (top 50%) of their high school graduating class.
- * Have completed the MnSCU State University college preparation curriculum.
- * Have scored a 21 or higher on the ACT composite score.

And also may...

- * Provide evidence of ability to accept responsibility.
- * Provide evidence of ability to benefit from the educational experience offered at St. Cloud State University.

Students who are home schooled, graduating from high schools that do not rank students or have earned a GED will also have their records reviewed by the Admissions Committee.

St. Cloud State University requires all first year students, under the age of 21, to submit an ACT college assessment. The ACT assessment scores must be received prior to enrollment. In addition, a final high school transcript, indicating a graduation date, is also required prior to enrollment.

FRESHMAN STUDENTS MUST ALSO MEET MINNESOTA STATE UNIVERSITY PREPARATION STANDARDS.

Students graduating from high school in 1994 and beyond are subject to the Preparation Requirements.
