

Distance Delivery for Undergraduate Students

The Anoka Portal Program

The Anoka Portal Program is a partnership between Anoka Ramsey Community College and St. Cloud State University. The Portal is designed to allow students in the Twin Cities the opportunity to earn bachelor's and master's degree programs without having to attend the SCSU campus. Current programs offered include: Special Education and the Bachelor of Elective Studies. Students wishing to learn more about the courses and programs available on the ARCC campus, should contact:

Ms. Sandra Boen
320.308.4721
sjboen@stcloudstate.edu

Aviation Maintenance Management Bachelor Program

The Department of Aviation has extended access to its Aviation Maintenance Management program beyond the campus boundaries by creating an online degree completion program. When combined with the student's technical background and certification in the aviation maintenance field, this program leads to a baccalaureate degree in Aviation Maintenance Management.

The aviation online program is designed to combine the student's Airframe and Powerplant and/or Avionics certification with the major track in Aviation Management. The major courses will be delivered in an online format, where you will work interactively with your faculty and your peers in a virtual classroom environment. This allows students who are unable to attend class on the SCSU campus the opportunity to complete their degree on a part-time basis.

Bachelor of Elective Studies Degree Community Psychology

The mission of the community psychology program is to prepare professionals to understand and empower diverse individuals, families, and groups and to offer curriculum and community experiences to prepare students to enter the work force as a bachelor's level practitioner or continue on for a graduate degree. Students may be employed in a wide variety of human services agencies, corporations, and government agencies.

Criminal Justice

The Criminal Justice Studies program is offered at the Ridgewater Community College campus in Willmar, MN. The program is also delivered entirely online.

Criminal justice is a decision making process that incorporates the management and control of crime and criminal offenders. The objective of the criminal justice program at St. Cloud State University is to prepare and educate tomorrow's leaders in such fields as domestic and international law enforcement, courts, corrections, juvenile justice, private security and the practice of law. SCSU offers graduate programs through distance delivery.

The following graduate programs are available to graduate students. Courses may be available online, through Interactive Television (to sites around Minnesota), and instructor led at off campus locations. For more information on any of these programs and degree requirements, contact the department directly. For questions about distance delivery options, contact the Center for Continuing Studies at 320.308.3081.

Applied Behavior Analysis Master of Science

This online program is designed for those students who desire advanced academic and professional training in behavior analysis. The M.S. program is available on campus and online. Students may specialize by taking electives in areas such as: autism spectrum disorders, developmental disabilities, behavior therapy, organizational behavior management, or community integration strategies for persons with challenging behaviors. The program is accredited by the Association for Behavior Analysis and by Minnesota Online (MNSCU). Approved course work that meets the requirements for the Behavior Analyst Board Certification is also provided.

Criminal Justice Master of Science

The criminal justice graduate program is available in its entirety online and on campus. Criminal justice is a decision making process that incorporates the management and control of crime and criminal offenders. The objective of the criminal justice program at St. Cloud State University is to prepare and educate tomorrow's leaders in such fields as domestic and international law enforcement, courts, corrections, juvenile justice, private security and the practice of law.

Educational Administration Master of Science

The program develops leaders for Minnesota's schools, and focuses on developing the skills and personal traits necessary for successful school administration. The field-based learning experiences are an integral, crucial aspect of the program. These programs have been approved by the MN Dept of Education for meeting the professional preparation requirements for licensure for administrative positions in K-12 school principal, director of special education, school district superintendent, and director of community education.

Higher Education Administration Master of Science

The M.S. in Higher Education Administration is a 35-credit degree program, developed specifically to prepare future higher education leaders. Students completing this degree will be prepared to work in four-year, community, and technical colleges and universities. The program requires a thesis, making it easier for graduates of the program to continue their education in a doctoral program if that is a goal.

Students interested in careers such as program director, department chair, dean, etc. receive a comprehensive program of study that explores academic affairs, administrative affairs, and student affairs. Courses in the program assist students in developing knowledge, skills, and dispositions necessary for success in higher education, based on higher education leadership competencies.

Individuals currently holding, or interested in holding, leadership positions in higher education will find this program flexible and accommodating to their needs.

Courses will be offered primarily on weekends (Friday evening and all day Saturday). In addition, the faculty members teaching in the program all have experience working in a variety of positions in higher education. For more information contact:

Information Media Graduate Programs

The Center for Information Media offers two certificates and a master's program with three tracks available through distance education.

- The Instructional Technology Certificate complements other majors, especially those in education. It may also be used as continuing education to upgrade skills.
- The Design for E-Learning Certificate is designed for persons interested in increasing their use of distributed learning technologies in schools, business, government, and industry settings.
- The master of science degree program information technologies track is designed for persons interested in increasing their use of information/instructional technologies in classrooms and schools. This program builds on the technology certificate program to provide competencies needed to become a technology coordinator in educational settings.
- The educational media track is designed for those interested in licensure as a media generalist in the public schools, becoming a technology coordinator in public/private

schools, advancing their careers as district media coordinators.

- The instructional design and training track, is for those interested in organizational media management in business, industrial, governmental, and health fields. The degree is designed to prepare an individual with competencies such as problem analysis, program development, resource management, personnel/performance evaluation, and instructional design. This track gives students a basic framework for undertaking a training or instructional design position, while at the same time developing the specific skills necessary for the practicing professional.

The certificates require 10 to 12 credits (four courses) each. The master of science requires 39 to 42 credits. These programs are regularly offered in the Twin Cities area and other sites throughout Minnesota through a combination of evening, weekend, interactive television and online formats. Distance Delivery for Graduate Students

MBA Accelerated Graduate Program

The MBA program at St. Cloud State University provides an opportunity for advanced study in business management. Our nationally accredited MBA program provides the educational foundation necessary to advance to executive positions in business, industry and government. This program of study is intended to provide students with analytical tools, knowledge of the functional areas of business, and understanding of the social, political, and economic environments of business, and a background in an area of special interest. The Accelerated MBA program provides eight-week courses, allowing part-time students to complete two courses in one semester, while attending class one night per week. For more information contact:

Web site: www.stcloudstate.edu/mba

MBA Maple Grove Program

Cohort groups in the Twin Cities suburb of Maple Grove will take a series of 11 eight-week evening courses to complete the MBA degree in 26 months. Each cohort completes one course at a time, meeting once per week for eight consecutive weeks. The courses are scheduled to allow for at least one week and up to eight weeks of break time between courses to allow for employment obligations and vacations.

The Herberger Maple Grove MBA program is hosted by Data Recognition Corporation (DCR) at the intersection of Bass Lake Road and I-494. All classes are held at this convenient and beautiful location. For more information contact:

Regulatory Affairs and Services

Master of Science

The RAS program focuses on the educational and career development of employees responsible for managing required regulatory approval processes in the medical device industry. This program, believed to be the first in the country specifically focused on medical devices, will educate professionals to lead medical device companies through to the Food and Drug Administration and international regulatory processes designed to ensure new medical devices are safe and effective. Classes are held evenings and weekends at North Hennepin Community College in Brooklyn Park, Minnesota. For more information contact:
