EMPLOYEE NEWS & INFORMATION

SEPTEMBER 2018

<http://www.stcloudstate.edu/its>

Information Technology Services' series of monthly emails to all employees aimed at improving communications with campus about tips, information, technology updates and services offered in ITS.

Fall 2018 Convocation

Our team enjoyed connecting with the campus community during Convocation week. The CETL-sponsored Technology for Teaching and Learning Showcase (T4TL) was an excellent opportunity for faculty and staff to learn about technology services available at the University and gain strategies for integrating technology in teaching and research. Behind the scenes, ITS staff and student employees worked hard to provide effective technology support and design for Convocation activities.

ISRS Replacement Project

Throughout the year you will be seeing information and activities regarding the NextGen ERP, which is Minnesota State's ISRS (Integrated Statewide Records System) replacement project. You can stay updated by using your StarID@minnstate.edu login to check out the [NextGen ERP SharePoint Site](#) and [subscribe to Friends of NextGen](#) for regular updates.

Technology Updates for Nursing Classrooms

To enhance student success, ITS partnered with the Nursing Department to renovate the Brown Hall simulation lab and recording system. Our Audio Visual Team managed the installation of new equipment such as cameras, simulation beds and recording devices. These upgrades were donor-funded and enable large groups to view multiple simulations in two different classrooms for enhanced observation and training.

D2L Brightspace

Minnesota State has launched the [D2L Brightspace System Status and News](#) website to provide D2L-related information, announcements, system maintenance updates, training, support and related software.

For on-campus assistance with D2L Brightspace, contact HuskyTech or D2L@stcloudstate.edu. Also, be sure to check out the [Academic Technologies webpage](#), offering additional information and tools for D2L and other academic technologies to support effective teaching and learning experiences.

HuskyTech at SCSU Main Street

We are looking forward to the annual [Main Street and Sidestreet event](#) on September 5th! Please stop by, and encourage your students to visit our HuskyTech table during the event to learn about all the technology services available to our campus community.
