EMPLOYEE NEWS & INFORMATION

JULY 2019

http://www.stcloudstate.edu/its

Information Technology Services' series of monthly emails to all employees aimed at improving communications with campus about tips, information, technology updates and services offered in ITS.

Office 365 Transition Support

ITS is ramping up for the Office 365 transition next month, and we are readily available to assist you! You can find our team in bright blue "Ask Me" shirts over the next couple of months. Additionally, you can view information about the transition anytime on the Office 365 page or contact HuskyTech for support.

Partnership Highlight

ITS partnered with the several units on campus to assist with the renovation of Eastman Hall. Our team managed the technology planning, coordination and installation of new technology equipment and ensured the work was completed without the disruption of campus-wide technology services.

IT Software Renewals

A majority of software and maintenance renewals occur during the first two months of each fiscal year and allow for continuity of many services and systems. If you are aware of software that is due for renewal, please contact ITProcurement@stcloudstate.edu to ensure we can help facilitate timely processing.

IT Security Tip

Be aware of ransomware, a type of malware that infects, locks or takes control of a system or computer and demands a ransom from its owner to resolve the issue. Paying the ransom does not guarantee resolution, it only guarantees loss of the victim's money and possible sharing of their banking information.

Ransomware targets both home users and businesses. If your SCSU-issued device becomes infected with ransomware, please contact our IT security team at phishing@stcloudstate.edu immediately.

Contact HuskyTech for technical services, support and sales.
