

# EMPLOYEE NEWS & INFORMATION MARCH 2022

#### **ITS Newsletter Archives**

Information Technology Services' series of monthly emails to all employees aimed at improving communications with campus about tips, information, technology updates and services offered in ITS.

## **ITS Newsletter Anniversary and Feedback**

This publication wraps up the first five years of ITS sharing regular technology tips, information and updates through this channel. In the spirit of continuous improvement, please complete a brief survey to share newsletter feedback.

Thank you to everyone who has read and contributed to the newsletter over the years!

### **Outlook Not Showing Pictures in Emails**

To help protect you and your computer, Microsoft Outlook blocks automatic picture downloads from the internet by default. This may cause you to receive emails that do not automatically show the picture, even from senders you trust. To see these pictures, choose the InfoBar at the top of the message and then click "Download Pictures." See Microsoft's online help guide for unblocking automatic picture downloads for more information.

#### IT Security Tip: Avoid Tax-Related Scams

Be mindful of scammers pretending to be from the IRS, especially during tax season. According to the IRS, thousands of people have lost millions of dollars and their personal information to tax scams. Scams may come through the mail, phone, email, social media or in-person contact. See the IRS's information on tax scams and know how the IRS contacts taxpayers, and please share these tips with students.

#### **Free Microsoft Office Downloads**

Faculty, staff and students can download and install Microsoft Office for free on a limited number of personal devices. For more information, including instructions on installing Microsoft Office on personal devices and managing personal devices associated with your Office 365 account, see St. Cloud State's <a href="How to Install Office 365">How to Install Office 365</a> Knowledge <a href="Base article">Base article</a>.

## Pi Day Fun Facts

Many know that March 14th (3/14) is celebrated as pi day because 3.14 are the first digits of the infinitely long number pi, but did you know the number sequence 123456 doesn't appear anywhere in the first million digits of pi?

Celebrate the world's most famous irrational number by checking out more <u>fun facts about pi</u>, testing your pi knowledge through the <u>Pi Day Expert Quiz</u>, or just <u>eating some pie!</u>
