1.7 Organizational Conflicts of Interest

The responder warrants that, to the best of its knowledge and belief, and except as otherwise disclosed, there are no relevant facts or circumstances that could give rise to organizational conflicts of interest. An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons, a vendor is unable or potentially unable to render impartial assistance or advice, or the vendor’s
objectivity in performing the contract work is or might be otherwise impaired, or the vendor has an unfair competitive advantage. The responder agrees that, if after award, an organizational conflict of interest is discovered, an immediate and full disclosure in writing must be made to the University’s chief financial officer that must include a description of the action which the vendor has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the university may, at its discretion, cancel the contract. In the event the responder was aware of an organizational conflict of interest prior to the award of the contract and did not disclose the conflict to the contracting officer, the university may terminate the contract for default. The provisions of this clause must be included in all subcontracts for work to be performed similar to the service provided by the prime contractor, and the terms “contract,” “contractor,” and “contracting officer” modified appropriately to preserve Minn State’s rights.

1.8 Duration of Offer

All proposal responses must indicate they are valid for a minimum of one hundred eighty (180) calendar days from the date of the proposal opening unless extended by mutual written agreement between St Cloud State University and the vendor.

Prices and terms of the proposal as stated must be valid for the length of the resulting contract.

1.9 Authorized Signature

The proposal must be completed and signed in the firm’s name or corporate name of the vendor, and must be fully and properly executed and signed in blue or black ink by an authorized representative of the vendor. Proof of authority of the person signing must accompany the response.

A. Vendors are hereby notified that neither Minn State nor the School shall be responsible for any of the costs incurred by any vendor or potential vendor in their preparation of the proposal documents or for any visits to campus. All such costs are the responsibility of the vendor.

B. By responding to this RFP Vendors agree to indemnify, save and hold Minn State, the School, its agents and employees harmless from any and all claims or causes of action arising from their proposal and performance of any subsequent contract by Vendor or Vendor’s agents or employees. This clause shall not be construed to bar any legal remedies Vendors may have for the School’s failure to fulfill its obligations pursuant to this agreement.

1.11 Interviews

In some instances, an interview will also be part of the evaluation process.

St Cloud State University reserves the right to name a date at which all responding vendors will be invited to present demonstrations or participate in an interview. St Cloud State University does not agree to reach a decision by any certain date although it is hoped the evaluation and selection will be completed by the date identified in the Selection and Implementation Timeline above.

A proposal may be rejected if it is determined that a vendor’s ability to work with the existing infrastructure will be too limited or difficult to manage.

If deemed necessary by the University, interviews and site visits may also be held as part of the evaluation process.

1.12 Proposal Rejection and Waiver of Informalities
This RFP does not obligate the Minnesota State system, its Board of Trustees or St Cloud State University to award a contract or complete the proposed project and each reserves the right to cancel this RFP if it is considered to be in its best interest. St Cloud State University also reserves the right to waive minor informalities and, not withstanding anything to the contrary, reserves the right to:

a. reject any and all proposals received in response to this RFP;
b. select a proposal for contract negotiation other than the one with the lowest cost;
c. negotiate any aspect of the proposal with any vendor;
d. terminate negotiations and select the next most responsive vendor for contract negotiations;
e. terminate negotiations and prepare and release a new RFP;
f. terminate negotiations and take such action as deemed appropriate.

A proposal may be rejected if it is determined that a vendor’s ability to work with the existing infrastructure will be too limited or difficult to manage. The vendor selection and contract award shall be made in the best interest of the University. Accordingly, the University shall select the vendor(s) whose proposal(s), and oral presentation(s), if requested, demonstrate in the University’s sole opinion, the clear capability to best fulfill the purposes of this RFP in a cost-effective manner.

This RFP shall not obligate the University to award a contract or complete the proposed project and the University reserves the right to cancel this RFP if it is considered to be in its best interest.

The University does not agree to reach a decision by any certain date although it is hoped the evaluation and selection will be completed by the date identified in Section 1.4 of this RFP.

1.13 Material Ownership and Disposition of Responses

All materials submitted in response to this RFP shall become property of the University and Minnesota State and will become public record after the evaluation process is completed and an award decision made. Disqualification of a responder does not curtail this right. Responses to this RFP will not be open for public review until the University awards and executes a contract.

If responders submit information in response to this RFP that they believe to be trade secret materials, as defined by the Minnesota Government Data Practices Act, Minn. Stat. 13.37, responders must:

This indemnification survives the University’s award of the contract. In submitting a response to this RFP, the vendor agrees that this indemnification survives as long as the trade secret materials are in the possession of the University.

The University will not consider the prices submitted by the Responder to be proprietary or trade secret materials.

1.14 Cost of Proposal
The University will not be liable for any costs incurred by responders in preparation of a proposal answering this request for proposal.

1.15 Withdrawal of Proposal
Proposals may be withdrawn in writing and submitted by facsimile, mail, e-mail, or hand delivery from the Vendor prior to the deadline for receipt of proposals. No oral withdrawals will be accepted.

Any deductible will be the sole responsibility of the vendor and may not exceed $50,000 without the written approval of Minn State. If the vendor desires authority from Minn State to have a deductible in a higher amount, the vendor shall so request in writing, specifying the amount of the desired deductible and providing financial documentation by submitting the most current audited financial statements so that Minn State can ascertain the ability of the vendor to cover the deductible from its own resources.

The retroactive or prior acts date of such coverage shall not be after the effective date of this contract and vendor shall maintain such insurance for a period of at least three (3) years, following completion of the work. If such insurance is discontinued, extended reporting period coverage must be obtained by vendor to fulfill this requirement.

Additional Insurance Conditions:

- Vendor’s policy(ies) shall be primary insurance to any other valid and collectible insurance available to Minn State with respect to any claim arising out of vendor’s performance under this contract;
- If vendor receives a cancellation notice from an insurance carrier affording coverage herein, vendor agrees to notify Minn State within five (5) business days with a copy of the cancellation notice, unless vendor’s policy(ies) contain a provision that coverage afforded under the policy(ies) will not be cancelled without at least thirty (30) days advance written notice to Minn State;
- Vendor is responsible for payment of contract related insurance premiums and deductibles;
- If vendor is self-insured, a Certificate of Self-Insurance must be attached;
- Vendor’s policy(ies) shall include legal defense fees in addition to its liability policy limits, with the exception of B.4 above;

- An Umbrella or Excess Liability insurance policy may be used to supplement the vendor’s policy limits to satisfy the full policy limits required by the contract.

C. St Cloud State University reserves the right to immediately terminate the contract if the vendor is not in compliance with the insurance requirements and retains all rights to pursue any legal remedies against the vendor. All insurance policies must be available for inspection by St Cloud State University and copies of policies must be submitted to St Cloud State University’s authorized representative upon written request.
3.16 State Audit

The books, records, documents and accounting practices and procedures of the vendor relevant to the contract(s) must be available for audit purposes to Minn State and the Legislative Auditor’s Office for six (6) years after the termination/expiration of the contract.

The vendor must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by Minn State, its schools and the System Office in accordance with the contract and as it applies to all data created, gathered, generated or acquired in accordance with the contract. All materials submitted in response to this RFP will become property of the State of Minnesota and will become public record after the evaluation process is completed. Pursuant to the statute, completion of the evaluation process occurs when Minn State has completed negotiating the contract with the selected vendor. If the vendor submits information in response to this RFP that it believes to be trade secret materials as defined by the Minnesota Government Data Practices Act, the vendor must:

- mark clearly all trade secret materials in its response at the time the response is submitted;

This indemnification survives Minn State’s award of a contract. In submitting a response to this RFP, the responder agrees this indemnification survives as long as the trade secret materials are in possession of Minn State.

Minn State will not consider the prices submitted by the Responder to be proprietary or trade secret materials.

3.18 Physical and Data Security

The vendor is required to recognize that on the performance of the contract the vendor will become a holder of and have access to private data on individuals and nonpublic data as defined in the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13; and other applicable laws.

In performance of the contract, the vendor agrees it will comply with all applicable state, federal and local laws and regulations, including but not limited to the laws under Minnesota Statute Chapters 13 relating to confidentiality of information received as a result of the contract. The vendor agrees that it, its officers, employees and agents will be bound by the above confidentiality laws and that it will establish procedures for safeguarding the information.

The vendor agrees to notify its officers, employees and agents of the requirements of confidentiality and of the possible penalties imposed by violation of these laws. The vendor agrees that neither it, nor its officers, employees or agents will disclose or make public any information received by the vendor on behalf of Minn State and St Cloud State University.

The vendor shall recognize Minn State’s sole and exclusive right to control the use of this information. The vendor further agrees it shall make no use of any of the described information, for either internal or external purposes, other than that which is directly related to the performance of the contract.

The vendor agrees to indemnify and hold harmless the State of Minnesota, Minn State and St Cloud State University from any and all liabilities and claims resulting from the unauthorized disclosure by the vendor, its officers, employees or agents of any information required to be held confidential under the provisions of the
contract. The vendor must return all source data to the “Authorized Representative” to be identified in the contract.

Reimbursements will not be made for travel and subsistence expenses incurred outside Minnesota unless it has received the State’s prior written approval for out of state travel. Minnesota will be considered the home state for determining whether travel is out of state.

3.20 Liability

The vendor agrees to indemnify and save and hold the University, its agents and employees, harmless from any and all claims or causes of action arising from performance of any resulting contract by Vendor or Vendor’s agents or employees. This clause shall not be construed to bar any legal remedies Vendor may have for the University’s failure to fulfill its obligations pursuant to contract.

3.21 Americans with Disabilities Act Compliance (hereinafter “ADA”)

The vendor is responsible for complying with the Americans with Disabilities Act, 42 U.S.C. 12101, et. Seq. and regulations promulgated pursuant to it. EXHIBIT E – Program Details

St. Cloud State University: Costa Rica Geotourism

*Tentative date range for the program: January 1, 2020 – January 9, 2020 (7 days)*

**Program Description**

The Costa Rica Geotourism faculty-led program at St. Cloud State University is led by faculty from the School of Public Affairs. This program is to be offered during St. Cloud State State’s 2019-2020 winter break. The students who participate will earn three credits in a Special Topics in Costa Rica Geotourism. The primary purpose of this Study Abroad program is to give students the opportunity to evaluate and experience the development and application of Geotourism in an international setting. Geotourism is defined as tourism that sustains or enhances the geographical character of a place, including its environment, culture, heritage, aesthetics and well-being of its residents. Geotourism incorporates the concept of sustainable tourism—that destinations should remain unspoiled for future generations—while allowing for ways to protect a place’s character. Geotourism, like ecotourism, promotes the conservation of the natural and cultural resources that give destinations their distinctive character. Geotourism promotes sustainable development by building on a destination’s geographical character, its "sense of place," to emphasize the distinctiveness of its locale and benefit visitor and resident alike.

To accomplish this purpose, students will be given opportunity to:

1. Witness how sustainable tourism development (Geotourism) benefits residents, businesses and tourists as increased attention is placed on preserving and protecting the uniqueness of place using observed examples;
2. Identify challenges, impacts and conflicts associated with traditional mass tourism activities in comparison to Geotourism focused development; and
3. Discuss alternative sustainable tourism development practices that address issues related to the built and natural environment drawing on their personal observations and experiences.

There is not a required major to participate in the program; however, participants will likely come from the following majors:
- Geography and Planning
- Hospitality and Tourism
- Global Studies

The main instructional delivery methods used in this course include: discussion, lectures, site visits, guest speakers, and service learning. Participation and learning will be assessed in country through daily group discussions and journal writing assignments. Assignments will be structured around a daily topic (typically one at breakfast time and one at end of day) with additional time afforded for independent observations and work with documents. Reflection on faculty presentations, group discussions, site visits and tour activities as they relate to designed student learning outcomes are the primary focus of daily journal entries.

The following is a list of student learning outcomes:

1. Explain how sustainable tourism development (Geotourism) benefits residents, businesses and tourists as increased attention is placed on preserving and protecting the uniqueness of place using observed examples.
2. critique and address current challenges, impacts and conflicts associated with traditional mass tourism activities in comparison to Geotourism focused development;
3. discuss and prescribe alternative sustainable tourism development practices that address issues related to the built and natural environment drawing on personal observations and experiences;
4. recognize similarities and differences between U.S. culture and host cultures;
5. demonstrate increased knowledge and appreciation for the host culture, local heritage, and the natural environment;
6. Acquire a sense of stewardship for global cultural and natural resources that contribute to the “uniqueness of place.”

Program Itinerary

Day 1  Flight to San José, Costa Rica
Walking tour of downtown San Jose, drawing attention to the colonial urban layout of the city with its central plazas, parks and linear transportation routes.

Day 2  San José – Braulio Carrillo National Park-Tortuguero Village
Established in 1978, Braulio Carrillo National Park, located in the Central Volcanic range, preserves some of the highest levels of biodiversity in Costa Rica. Unlike many of Costa Rica’s national parks Braulio Carrillo is largely unmaintained and untraveled, allowing visitors to experience a pristine forests and landscapes, and observe the application of ecotourism development practices.

Boat ride to Tortuguero Village. Founded in the 1930s by Colombians exporting sea turtles and coconuts, Tortuguero Village today is accessible only by boat and home to 700 residents. Walking tour of Tortuguero Village upon arrival.

Day 3  Tortuguero National Park
Tortuguero NP is arguably the most important Caribbean breeding ground for the green sea turtles who have lived here for more than 100 million years. High rainfall, a convergence of fresh water and the Caribbean Sea makes the beaches, canals, lagoons and wetlands of Tortuguero areas of exceptional biodiversity and thereby amazing geotourism development.

Day 4  Tortuguero – Sarapiquí region
Geotourism is a popular development model in Sarapiquí, a county within the province of Heredia. Located in the heart of the banana and coffee production areas, Sarapiquí is known to be one of the best places in the country for whitewater rafting and birdwatching. A zipline canopy tour will give students a bird’s-eye view of the rainforest, and maybe some of the indigenous wildlife, including monkeys, caimans, crocodiles and iguanas, and if we are lucky the threatened green macaw.

Day 5  Sarapiquí region – Arenal region
Introduced by adventure seekers from North America in the 1980s, white-water rafting has “rapidly” become a popular geotourism activity in central Costa Rica. As we will be traveling in the “dry season” we may not have ideal conditions for a white-water experience, and may be limited to searching the lush forests that border the Sarapiquí River for wildlife along the riverbank, such as hummingbirds, quetzals, agoutis and coati mundis.

Forests will give way to rolling hills as we enter the province of Alajuela, and the San Carlos plain, where we will see the conic Arenal volcano appear on the horizon. Volcanologists believe the volcano has been
active for the past 7,000 years. The day will end with a relaxing visit to naturally heated (geothermal) hot springs at the base of Arenal volcano.

**Day 6**  ArenalVida Campesina- La Fortuna Waterfall.
Visit to a local agritourism plantation where students have opportunity to learn responsible agricultural production of traditional Tico crops: sugar cane, coffee, maize, yucca, cocoa, bananas, platanos and more. Afterwards students will hike to La Fortuna Waterfall, a 200-foot spectacle of fresh, cascading rainforest water that originates at the base of the volcano.

**Day 7**  Arenal region – Guanacaste
As we travel to the province of Guanacaste, we will take time to explore Rincón de la Vieja National Park. Located high in the Pacific Coast Mountains, this rain and cloud forest boasts numerous geothermal hot springs.
Guanacaste province, called Costa Rica’s “Gold Coast” due to its colorful Pacific beaches, dry tropical forests, and ‘wild west’ landscape. Here beach goers mix with local cattle ranchers driving ox carts.

**Day 8**  Guanacaste
Snorkeling is the primary activity for this morning. After some quick instruction, students will venture out into the emerald Pacific waters in search of sea turtles, colorful coral formations, and all sorts of divers and unusual marine life.
Later in the afternoon we will embark on a boat tour to Pal Verde National Park. Paul Verde NP is home to one of the last tropical dry rainforests in Central America, and many different bird species flock to its lush trees and marshlands.

**Day 9**  Return flight home to Minneapolis, MN
