Programs at St. Cloud State University (SCSU) that lead to a professional licensure or certification are intended to prepare a student for potential licensure or certification in Minnesota. While the SCSU programs meet the relevant academic requirements set by the licensure or certification board/agency in Minnesota, they may or may not meet the educational requirements for a licensure or certification in another state. If you are planning to seek professional licensure or certification outside Minnesota it is important for you to know the specific requirements of the state in which you intend to apply for licensure or certification.
