**Total program credits: 120-123**

**Notes:**
- You may declare the major when you have completed ECON 205 and 206 with a “C” or better.
- A “C” or better is required in ECON 205, 206, 405, 406, and 481.
- Two upper division electives may come from outside the economics department. See the Undergraduate Catalog for substitutions.
- Students contemplating double-majoring in FIRE and ECON should be aware that this is a B.A. degree program and FIRE is a B.S. degree program. To acquire both diplomas requires 150 total credits of coursework and will take more than four years.
- There is time for you to take some of your liberal education electives later in your studies if you wish.
- This program provides for 33 credits of upper division coursework. You will need 40 upper division credits (300-400 level) for graduation. A minor would help you meet this requirement, but you do not need a minor with this program.
- You must complete three diversity courses. ECON 350 will count as a diversity course and will satisfy Goal 8. The course will count as an elective for the major and an upper division course.

*number in parentheses indicates credits and Goal area from Liberal education electives
