

MUSIC / BACHELOR OF ARTS, BACHELOR OF SCIENCE, AND BACHELOR OF MUSIC

You will learn a lot in your studies at SCSU, and we want you to start thinking about your future NOW! This map offers suggestions on what to consider along the way to best prepare you for your future and the skills sought by employers and professionals. They are suggestions — you don't have to complete them all. The map will help you, however, keep track of those experiences and opportunities that prepare you for your first job, starting a business or studio, or preparing for graduate school. It will also help you think about the many career possibilities and options that lie ahead.

You will find links to information, offices, support centers, student assistance professionals, and other help embedded in the map. SCSU has many support services available to students, and these will help you communicate with and locate those services.

GETTING TO KNOW THE DEGREE

Music majors study music while developing a broad set of skills and knowledge that they can apply to work or graduate education. Students have the opportunity to craft their musicianship through performance in any of our ensembles and in private lessons with our very accessible applied teachers, expand their creativity in any of our composition courses, explore the world of digital arts through any of our new media courses, and find the inspiration to become one of the next generation of outstanding music educators. Studying music at SCSU will provide you with the essential skills to be successful in the modern workforce.

What do employers want and what skills do they seek?

Results from a 2015 National Association of Colleges and Employers survey asks hiring managers what they seek most when hiring new college graduates:

- » The ability to:
 - work in a team structure
 - make decisions and solve problems (tie)
 - communicate verbally with people inside and outside an organization
 - plan, organize and prioritize work
 - obtain and process information
 - analyze quantitative data
 - create and/or edit written reports
 - sell and influence others
- » Technical knowledge related to the job
- » Proficiency with computer software programs

A 2015 American Association of College and Universities (AAC&U) survey of Employers reports:

- » **INNOVATION A PRIORITY:** 95% report giving hiring preference to college graduates with skills that enable them to contribute to innovation in the workplace.
- » **IT TAKES MORE THAN A MAJOR:** 91% say that a demonstrated capacity to think critically, communicate clearly, and solve complex problems is more important than a candidate's undergraduate major.
- » **BROAD LEARNING IS EXPECTED:** Employers place the greatest priority on a demonstrated proficiency in skills and knowledge that cut across majors, with written and oral communication, teamwork skills, ethical decision making, critical thinking, and the ability to apply knowledge in real-world settings among the most highly valued.
- » **STUDENTS NEED LIBERAL AND APPLIED LEARNING:** 96% agree that, "All college students should have experiences that teach them how to solve problems with people whose views are different from their own."
- » **E-PORTFOLIOS WOULD ADD VALUE:** 83% say an electronic portfolio would be useful to indicate that job applicants have the knowledge and skills they need to succeed.

DEGREE OPTIONS:

- Bachelor of Arts in Music
- Bachelor of Arts in Music, Composition
- Bachelor of Science in Music Education, Instrumental or Vocal/General
- Bachelor of Music, Instrumental, Vocal, or Piano Performance
- Minor: Music (18 credits)

- Minor: Arts Entrepreneurship (18 credits)

Updated: 1/28/19

COURSE AND PROGRAM HIGHLIGHTS:

All music majors learn performance skills in ensembles and lessons, and study theory, history, technology, and piano skills. You may declare a Music Major without an audition, however, in order to enroll in lessons you must first perform an audition.

WHAT WILL I LEARN STUDYING MUSIC?

1. Ability to be creative and think outside the box

Think: improvising; composing innovative music; dealing with myriad challenges that crop up before or during performances.

2. Ability to plan ahead

Think: learning the music in advance of performances; juggling your schedule; knowing what it takes to look your best at concerts.

3. Ability to take responsibility

Think: scheduling and getting to lessons and rehearsals; learning your part for a group performance; leading a section of the orchestra or a band.

4. Ability to collaborate and work effectively with others to meet goals

Think: being part of an ensemble, orchestra or chorus.

5. Ability to think and understand in patterns

Think: learning and performing music.

6. Ability to manage time well and handle several projects at once

Think: juggling school with performing, practicing and the rest of your life to succeed at majoring in music.
