Amount/Container (e.g., mls/bottle): _____

Date	Quantity Received	Received From	Quantity Used	Calculated Quantity in Open Bottle	Number of Unopened Containers	Use Information or Comments	Initials

DEA/MNBP Registrant Name: _____

Note: For DEA **Schedule II** controlled substances, each quantity of drug withdrawn from a container for use on a single animal during a single anesthetic event (i.e., each dose) must be recorded in a separate row. For DEA **Schedule III, IV, or V** controlled substances, the total amount of drug withdrawn from a container by an authorized user during a single day or for a single use event (e.g., surgical procedure involving multiple animal subjects) may be recorded in a single row. When recording daily amounts, however, individual doses must be recorded on an accessible record of the use event.
