Information Technology Services' series of monthly emails to all employees aimed at improving communications with campus about tips, information, technology updates and services offered in ITS.

Convocation

Please join us during convocation week for activities related to Information Technology Services, including:

- IT Strategic Plan and Priorities session
- T4TL (Technology for Teaching and Learning) Showcase offering information about D2L and Windows 10

We are excited to bring you these opportunities through an ongoing partnership with the Center for Excellence in Teaching and Learning.

IT Support for Start of Semester

For a successful start to the new school year, ITS is dedicated to ensuring services are readily available and equipment is operating effectively. To accomplish this, we are:

- Offering additional HuskyTech and Campus Card hours during convocation week and the first week of the semester
- Expanding the availability of full-time staff during convocation week, the first two weeks of the semester and during special University activities
- Imaging lab, classroom and instructor stations
- Maintaining and testing each of our eClassrooms for functionality
- Postponing non-essential IT changes to minimize potential outages

We encourage you to test your electronic materials prior to the start of the semester. It can take several minutes to log into a machine for the first time due to recent Windows 10 upgrades on lab and classroom workstations.

As always, it's never too early to report issues in labs, classrooms or your individual workstation. Please contact [HuskyTech](#) for any IT support needs you may have.

Did You Know?

Adobe Connect is Minnesota State's online web conferencing system and collaboration tool open to students, faculty and staff. It provides multimedia capabilities that can be used for many activities such as interactive classes, group work, online office hours and meetings.

A short video on accessing [Minnesota State's web conferencing system](#) is available for viewing. For additional questions, meeting help or a computer system check, see [Web Conferencing Powered by Adobe Connect](#).

IT Security Tip

[MoveItSecurely](#), licensed through the Minnesota State System, allows you to transfer non-public/restricted data and large files securely to another person via a secure server. This service is available to faculty, staff and students with a StarID.

For more information, please see "Secure File Transfer" on the [St. Cloud State University website](#).
