St. Cloud State College
St. Cloud, Minnesota
Student Center Opinion Poll
April, 1961

For several years a study has been made on the need for a Student Center Building at St. Cloud State College. The committee of students, appointed by the Student Council, and an administrative representative of the college administration, carefully prepared reports surveying the facilities and services needed in a student center on this campus.

During the year 1960-61 the Student Center Committee planned activities that were designed to inform the entire student body of the services and facilities that might be included in the proposed student center. The College Chronicle carried a special series of articles, letters to the editor, and editorials about the need for a student center building. The On-Campus Radio Show interviewed the students on the committee, and a special movie of student center activities was shown. A convocation gave all students the opportunity to ask questions about the proposed building and the facilities. The Student Center Committee visited residence halls, and personally contacted many of the student leaders on the campus.

On April 6, 1961 a student center opinion poll was offered to the students at St. Cloud State College. Students could voluntarily register their opinion at the centers in Stewart Hall, Mitchell Hall and Shoemaker Hall. At each of these locations there were facilities for distribution of forms and receiving of the completed opinion polls. A registry of students voting assured no duplication of the respondents.

This following report shows the results of the opinion poll of 1356 respondents or 49% of the full-time students on the campus in April, 1961.

Respectfully submitted,

Don Bussell Larry Harris
