

[Resolution tabled]

ST. CLOUD STATE COLLEGE
St. Cloud, Minnesota
January 11, 1966

MISCELLANEOUS RESOLUTION

ALBERTINA C. ANDERSON STUDENT RESIDENCE
(F-1A High Rise Residence Hall) [Stearns Hall]

BE IT RESOLVED, that the F-1A High Rise Residence Hall now under construction at St. Cloud State College be named Albertina C. Anderson Student Residence.

Miss Anderson retired in 1944 as principal of the laboratory school after 39 years of service to the college. She was an excellent administrator and a superior teacher, noted for the patience and concern she had for her students.

Miss Anderson was an 1896 graduate of St. Cloud Normal School and received a B.E. degree from St. Cloud State Teachers College in 1933. She also took graduate work at the University of Minnesota and Columbia University Teachers College. Prior to joining the college faculty, Miss Anderson taught for nine years in the St. Cloud public schools.

Affectionately known as "Andy", she was highly respected by her co-workers for her fairness, sense of humor and practical application of theory. A quiet philanthropist, she paid many school expenses for needy students from her purse while providing them with part-time jobs to help them maintain their self-respect. Miss Anderson died in 1964.

It is appropriate that a student residence be named for this woman who enriched the lives of so many young people at St. Cloud State College. It is also significant that the building is located very near the site of Miss Anderson's St. Cloud home.
