

St. Cloud State University Policy Framework Hierarchy

Federal Law
State Statutes
Regional/City Ordinances

Minnesota State Colleges and Universities Board of Trustees Policies and Procedures are adopted by the Board to guide institutional decisions and actions, articulate compliance with external mandates, promote consistency and conserve resources. They override policies and procedures adopted by universities and their subdivisions.

St. Cloud State University Policies

University Policies translate the university's Mission, Values, and Obligations into daily actions. University Procedures tell how to implement university or system policy, applicable law, and contractual obligations. Policies and Procedures may be developed by university colleges, departments and functional units of the University and reviewed by the President's Cabinet/Council before being approved by the President. Policies further down the hierarchy must not conflict with those further up the hierarchy.
