

Principal Investigators

The faculty directors are members of the Midwest Association of Public Opinion Research (M.A.P.O.R.) and the American Association of Public Opinion Research (A.A.P.O.R.) (<http://www.aapor.org/Home.htm>). The directors subscribe to the code of ethics of A.A.P.O.R. and the Transparency Initiative (http://www.aapor.org/Transparency_Initiative/4272.htm)

Dr. Stephen I. Frank

Department of Political Science

51-B 302

320-308-4131

Homepage: sfrank@stcloudstate.edu

Dr. Frank holds a Doctor of Philosophy in Political Science from Washington State University. Dr. Frank teaches courses in American Politics, Public Opinion and Research Methods at St. Cloud State University. Dr. Frank started the SCSU Survey in 1980, and since has played a major role in the development, administration and analysis of over 150 telephone surveys for local and state governments, school districts and a variety of nonprofit agencies. Dr. Frank has completed extensive postgraduate work in survey research at the University of Michigan. Dr. Frank coauthored with Dr. Wagner and published by Harcourt College, "*We Shocked the World!*" A Case Study of Jesse Ventura's Election as Governor of Minnesota. Revised Edition. Among his publications are two academic book chapters: one appears in the current edition of Perspectives on Minnesota Government and Politics and the other, co-authored with Dr. Wagner, is contained in *Campaigns and Elections*, edited by Robert Watson and Colton Campbell. Dr. Frank is past chairperson of the SCSU Department of Political Science and served as President of the Minnesota Political Science Association. The MN. Political Science Association honored him on 11/10 as their first distinguished professor of political science.

Dr. Steven C. Wagner

Department of Political Science

51-B 301

320-308-5423

swagner@stcloudstate.edu

Dr. Wagner holds a Doctor of Philosophy in Political Science and a Master of Public Administration from Northern Illinois University. Dr. Wagner earned his Bachelor of Science in Political Science from Illinois State University. Dr. Wagner teaches courses in American Politics and Public and Nonprofit Management at St. Cloud State University. Dr. Wagner joined the SCSU Survey in 1997. Before coming to SCSU, Dr. Wagner taught in Kansas where he engaged in community-based survey research and before that was staff researcher for the U.S. General Accounting Office. Dr. Wagner has written many papers on taxation, and state politics and has published articles on voting behavior, federal funding of local services and organizational decision making. Dr. Wagner, with Dr. Frank, published two texts on Jesse Ventura's election as Minnesota's Governor and a book chapter on the campaign. Dr. Wagner is past chairperson of the SCSU Department of Political Science.

Dr. Michelle Kukoleca Hammes

Department of Political Science
51-B 303
320-308-4130
mhammes@stcloudstate.edu

Dr. Kukoleca Hammes holds a Doctor of Philosophy in Political Science and a Masters in Political Science from the State University of New York at Binghamton. Dr. Kukoleca Hammes earned her Bachelor of Arts in Political Science from Niagara University. Dr. Kukoleca Hammes' is a comparativist with an area focus on North America and Western Europe. Her substantive focus is representative governmental institutions and Democratic discourse. She teaches courses in American Government, Introduction to Ideas and Institutions, Western European Politics, Canadian Government, and Politics in Literature. As part of the SCSU Survey, Dr. Kukoleca Hammes enjoys the opportunity to be involved in applied research in a setting that encourages student collaboration.

Dr. David H. Robinson

Department of Statistics and Computer Networking
Engineering & Computing Center 237
320-308-2149
dhrobinson@stcloudstate.edu
Homepage: <http://web.stcloudstate.edu/dhrobinson/>

Dr. Robinson holds a Doctor of Philosophy in Statistics and a Masters in Statistics from the University of Iowa. Dr. Robinson earned his Bachelor of Science in Mathematics from Henderson State University. At St. Cloud State University, Dr. Robinson teaches courses in survey planning and contingency tables, statistical methods for the social sciences, probability and computer simulation, and other statistical applications. Since coming to SCSU in 1985 and before that time, Dr. Robinson has served as statistical consultant for numerous statistical analyses of survey results. He has coauthored a book on computer simulation and analysis, and has published articles in the areas of nonparametric statistics, multivariate statistics, analysis of baseball statistics, and statistical analysis of computer network performance. Dr. Robinson recently served as chairperson for the SCSU Department of Statistics and Computer Networking.

Dr. Sandrine Zerbib

Department of Sociology and Anthropology
Stewart Hall 266
320-308-3046
sazerbib@stcloudstate.edu

Dr. Zerbib holds a Doctor of Philosophy in Sociology from the University of California Irvine and a Masters in Sociology from both California State University-Fullerton and University of Paris 10-Nanterre (France). Dr. Zerbib's ongoing research focuses on issues of immigration, sexuality and citizenship. Dr. Zerbib's current research analyzes the effect of domestic partnership laws on gay bi-national couples living in France. She is currently collaborating with Dr. Downey on research linking belly dance performance and gender politics. She teaches courses in Research Methods, Sociology of Gender, democratic citizenship, Immigration and Citizenship, and Advanced Research Methods.

Dr. John T. Kulas

303 Whitney House
320-308-3234
jtkulas@stcloudstate.edu
Homepage: <http://web.stcloudstate.edu/jtkulas>

Dr. Kulas holds a Doctor of Philosophy in Industrial and Organizational Psychology from Northern Illinois University. Dr. Kulas earned his Bachelor in Arts from the University of Minnesota. His applied background includes current and past appointments as a test publisher, an internal HR practitioner, and an external

organizational consultant (focusing primarily on topics of personnel selection and performance assessment). He has authored over 20 conference and journal articles, dealing with issues of measurement in organizational settings. His works can be found in sources such as the *Journal of Psychology*, *Organizational Research Methods*, *Journal of Applied Measurement*, *Journal of Business and Psychology*, *Social Justice Research*, and *Journal of Research in Personality*. He has received research awards from the Society for Industrial and Organizational Psychology and the American Psychological Society.

Public Administration Major, Rice, MN.

SURVEY METHODOLOGY

The Fall 2011 St. Cloud State University Survey findings are based on telephone interviews with a representative sample of 626 (weighted and un-weighted) adults in Minnesota. The sample included both landline phones and cell phones. Interviews were conducted from October 17 to October 26, 2011 at the St. Cloud State University Survey Lab. The sample was obtained from Survey Sampling International (SSI) of Fairfield, Connecticut.

Sample Design

The sample was designed to represent all adults (age 18 and older) with a landline or cell phone in Minnesota.

Landline Phones: The landline telephone numbers were drawn using standard list-assisted random digit dialing (RDD) methodology. Random digit dialing guarantees coverage of every assigned phone number regardless of whether numbers are directory listed, purposely unlisted, or too new to be listed. The numbers were generated from active blocks, proportionally to the number of landline telephone households by county.

Using the RDD database of active 100-blocks of telephone numbers (area code + exchange + two-digit block number) that contain three or more residential directory listings, selections were made in proportion to the block count of listed telephone households. After selection two more random digits were added to complete the number. Completed numbers were then compared against business directories, and listed business numbers were purged.

Cell Phones: The cell phone numbers were drawn from the most recent Telcordia TPM master file of NPA-NXX and Block-ID records for the North American Number Plan. All records from NPA-NXX and 1000 blocks that indicated a cell phone service, were included in the wireless sampling frame. New exchanges were included, as were shared blocks.

Each exchange and 1000-block in the frame was expanded down to the 100-block level. Shared 100-blocks were then compared to the RDD database, so that the 100-blocks with no listed numbers were left in the wireless sample, while the 100-blocks containing listed numbers on the RDD frame were removed from the wireless sample. This resulted in a wireless frame of 100-blocks that had no overlap with the list-assisted RDD sample described above. Two more random digits were then added to complete the number.

Student Callers

After five or more hours of training and screening, approximately 40 students from Professor Sandrine Zerbib's Sociology 303 – Research Methods, Professor Steve Frank's Political Science 201 – Political Science Research Methods, Professor Kukoleca Hammes's Political Science 101 – Political Ideas and Institutions, completed the calling. Faculty directors and student directors monitored the interviewing. Student directors conducted both general training sessions and one-on-one training sessions, as well as monitoring all interviewing.

Contact Procedures

Before calling began, the original sample consisted of 2,872 landline and 2,500 wireless (cell) phone numbers. After completing the survey, the total sample consisted was 626 respondents, before and after weighting. In the weighted sample, 371 were on landline phones and 255 were on cell phones. In total, 38 questions were asked of 626 people (for a modal interview duration of 13 minutes). See below for more information on the weighting procedure and the questionnaire.

The sample was released for calling in replicates, which are representative subsamples of the larger sample (about 95 phone numbers for landlines and 100 phone numbers for wireless). Using replicates to control the release of sample ensures that complete call procedures are followed for the entire sample.

Several steps were taken to ensure that the telephone sample of adults in the state was representative of the larger adult state population. Interviewers for landline numbers alternately asked to speak with men and women, and oldest and youngest person (age at least 18 years old) at the households that were called. This systematic respondent selection technique has been shown to produce samples that closely mirror the population in terms of age and gender. For cell phone numbers, the interview was completed with the person of initial contact, provided the contact person was at least 18 years of age and a Minnesota resident.

Phone numbers with no initial contact were called up to 10 times over different days of the week (between October 17 and October 26) and times to increase the possibility of contact. Cell phones

were called up to 5 times. In addition, appointments were made as necessary to interview the designated respondent at his/her convenience. Calling was completed between 4:30 pm to 9:30 pm to maximize contacts and ensure equal opportunities to respond among various respondent demographic groups. Attempts to convert initial refusals commenced almost immediately and continued throughout the survey. The final few nights of interviewing were almost exclusively devoted to contacting hard to reach respondents who often are younger and more affluent.

Technology

The SCSU Survey operates a Computer Assisted Telephone Interviewing (CATI) Lab on the St. Cloud State University campus. The CATI Lab is equipped with 19 interviewer stations; each includes a computer, a phone, and a headset. In addition to the interviewer stations, there is the Supervisor Station, which is used to monitor the survey while it is in progress. The SCSU Survey has its own server designated solely for the use of the SCSU Survey.

The SCSU Survey is licensed to use Sawtooth Software's Sensus 5.0, a state-of-the-art windows-based computer-assisted interviewing package. This program allows us to develop virtually any type of questionnaire while at the same time programming edit and consistency checks and other quality control measures to ensure the most valid data. The instrument was pre-tested prior to interviewing to make certain that all equipment and programming was in working order and to verify that the questionnaire was clear.

All interview stations are networked for complete, ongoing sample management. Sawtooth Software's Sensus allows immediate data updating, ensuring maximum data integrity and allowing clients to get progress reports anytime. The Survey directors are able to review data for quality and consistency. Question answers are entered directly into the computer, thus keypunching is eliminated, which decreases human error and facilitates immediate data analysis. The calling system is programmed to store call record keeping automatically, allowing interviewers and supervisors to focus on the interviewing task. Callbacks are programmed through the computer network and made on a schedule.

Sample Error

The margin of sampling error for the complete set of weighted data is ± 5 percent at the 95 percent confidence level. This includes a design effect from weighting of 1.20. In all sample surveys there are other possible sources of error for which precise estimates cannot be calculated. These include interviewer and coder error, respondent misinterpretation, and analysis errors. When analysis is made of sub-samples such as respondent gender, the sample error may be larger.

Sample Weighting

Weighting is generally used in survey analysis to compensate for patterns of nonresponse that might bias results. The interviewed sample of all adults was weighted to match parameters for ownership of the two types of phones, as well as gender and age. The phone ownership parameters

were determined from the 2010 National Health Interview Survey, while the age and gender parameters came from a special analysis of the Minnesota Population Projection found at <http://www.demography.state.mn.us/resource.html?Id=28319>. All statistics reported are weighted.

Weighting was accomplished using statistical raking, a special iterative sample weighting technique that simultaneously balances the distributions of all variables. The use of these weights in statistical analysis ensures that the demographic characteristics of the sample closely approximate the demographic characteristics of the Minnesota population.

Questionnaire

In addition to the main body of the questionnaire with 28 questions, there were 3 screening questions and 7 demographic questions. The complete questionnaire is located after the substantive tables in this document.

Sample Disposition Table	Landline	Cell	Total
Total Numbers Dialed	2,872	2,500	5,372
Completed Interviews	467	150	617
Partial	7	2	9

CATI QUESTIONNAIRE (most computer language removed)

Q: HELLO -----
T: 1 1

FINAL 10-19-11 DR

Hello, my name is _____ (YOUR NAME)
at St. Cloud State University. I am calling from our survey
research center in St. Cloud. We are conducting a study of
Minnesota residents about issues facing the state such as
immigration, the state budget, and other issues in the news.
We are not asking for contributions or trying to sell you
anything. Your telephone number was drawn by a computer in a
random sample of the state. [HIT ANY KEY TO CONTINUE]

T: 11 1
IF INTERVIEW IS A RESTART, MAKE SURE YOU HAVE PROPER RESPONDENT,
REINTRODUCE YOURSELF AND SAY SOMETHING LIKE--

We previously started this interview and couldn't finish it
at the time. May we finish it now?

IF RESPONDENT WANTS TO KNOW WHO THE INTERVIEW IS FOR YOU CAN
TELL THEM IT IS FOR ST. CLOUD STATE UNIVERSITY.
YOU CAN HIT CONTROL/END AT ANY TIME TO TERMINATE
AN INTERVIEW, PUT MESSAGE FOR CALLBACKS, INCOMPLETES,
REFUSALS, ETC.

Q: HELLO1 -----
C: If phone number is from RDD sample

T: 1 1

Is this your residential phone, that is a landline phone?

[IF NO]

Is this your personal cell phone, not a business phone?

[IF NOT PERSONAL CELL PHONE, TERMINATE BY SAYING]

I'm sorry I have the wrong place. [END CALL WITH CTRL-END]

T: 8 10

1. YES, IT IS A RESIDENTIAL LANDLINE PHONE

2. NO, IT IS A PERSONAL CELL PHONE

Q: GENDER -----

c: Only ask this for landline surveys

T:

It is important that we interview a man in some households and a woman in others so that the results will truly represent all the people in the state. According to the method used by our university, I need to interview the _____.

May I speak with that person?

[ROTATE WITH EVERY INTERVIEW-KEEP TRACK ON SHEET BY YOUR COMPUTER]

[IF DESIGNATED SEX DOESN'T LIVE IN HOUSEHOLD

ASK FOR OPPOSITE SEX - 18 YEARS OF AGE OR OLDER]

T: 12 4

1. oldest male 18 years of age or older who lives in your household

2. youngest male 18 years of age or older who lives in your household

3. oldest female 18 years of age or older who lives in your household

4. youngest female 18 years of age or older who lives in your household

Q: HELLO25 -----

C: Cell phone intro

T:

Hello, my name is _____ (YOUR NAME)

at St. Cloud State University. I am calling from our survey

research center in St. Cloud. We are conducting a study of

Minnesota residents about issues facing the state such as

immigration, the state budget, and other issues in the news.

We are not asking for contributions or trying to sell you

anything. Your telephone number was drawn by a computer in a

random sample of the state. A cash incentive of five dollars

is offered to you at the end if you complete the survey.

[PRESS ANY KEY TO CONTINUE]

Q: HELLO25A

C: This screen is only for calls that came from landline sample

C: but turn out to be cell phones (coming from screen HELLO1)

T:

A cash incentive of five dollars is offered to you at the end if you complete the survey.
For the purposes of this survey, I need to ask if you are male or female?

T: 6 10

1. MALE
2. FEMALE

Q: HELLO2B

T:

Is this a personal cell phone, that is not a business phone?
[IF NOT A PERSONAL CELL PHONE] Is this a residential landline phone?
[IF BUSINESS PHONE, TERMINATE WITH, E.G.;]
I'm sorry I have a wrong number. [END CALL WITH CTRL-END]

For the purposes of this survey, I need to ask if you are male or female?

T: 9 8

1. MALE, PERSONAL CELL PHONE
2. FEMALE, PERSONAL CELL PHONE
3. MALE, RESIDENTIAL LANDLINE PHONE
4. FEMALE, RESIDENTIAL LANDLINE PHONE

Q: HELLO2C

T:

Are you age 18 or older and a resident of Minnesota?
[IF YES TO BOTH, PRESS ANY KEY TO CONTINUE]

[IF TOO YOUNG OR NOT A RESIDENT, END CALL BY SAYING]
I'm sorry I have a wrong number.
[THEN END CALL WITH CTRL-END]

Q: DRIVING -----

C: Only ask this for cell phone surveys

T:

It is important that we interview you when you are not driving or in a situation where you would be distracted by events around you. Are you in a safe situation to answer our questions?

[IF YES-START INTERVIEW]

Before starting the roughly ten minute survey, I want to mention that I would be happy to answer any questions about the study either now or later. Also, this interview is completely voluntary. If we should come to any question which you don't want to answer, just let me know and we'll go on to the next question. [PRESS ANY KEY TO CONTINUE]

[IF THIS IS NOT A GOOD TIME FOR INTERVIEW]

When may I call back to interview you?

[HIT CTRL/END, THEN RECORD TIME AND DAY FOR CALL-BACK]

Q: ETHICS -----

C: Only for landline survey

T:

[IF THIS IS THE SELECTED PERSON, START INTERVIEW]

[OR WHEN SELECTED PERSON ANSWERS, REPEAT INTRO]

Before starting the roughly ten minute survey, I want to mention that I would be happy to answer any questions about the study either now or later. Also, this interview is completely voluntary. If we should come to any question which you don't want to answer, just let me know and we'll go on to the next question. [PRESS ANY KEY TO CONTINUE]

[IF SELECTED PERSON NOT AVAILABLE]

When may I call back to reach him/her?

So that I will know who to ask for, what is his/her first name?

[REPEAT BACK TO BE SURE YOU HAVE IT AND SHOW PRONUNCIATION

IF IT IS NEEDED. IF RESPONDENT OBJECTS TO PROVIDING NAME]

We only need the person's first name; the last name isn't necessary.

[HIT CTRL/END, THEN RECORD NAME, TIME AND DAY FOR CALL-BACK]

Q: Q1DIRMN -----

T:

Let's begin by asking a general question about Minnesota.
Do you think things in the state are generally going in the
right direction, or do you feel things have gotten off on
the wrong track?

T: 7 10

1. RIGHT DIRECTION
2. NEUTRAL - [VOLUNTEERED]
3. WRONG TRACK
8. DON'T KNOW
9. REFUSED

Q: Q2PROBMN -----

T:

What do you think is the single most important problem facing the
State of Minnesota today?

[DO NOT READ LIST. PROBE FOR ONE SPECIFIC RESPONSE]

Answer:

Q: Q3PARPRO -----

T:

In Minnesota, which political party, if any, do you think can do a better job of handling the problem you have just mentioned - the Republicans, the Democrats, the Independence Party, the Libertarian Party, or the Green Party?

[INDEPENDENCE PARTY IS DIFFERENT FROM
THOSE WHO SAY THEY ARE AN INDEPENDENT WHICH IS NO PARTY]

T: 10 10

1. REPUBLICAN
2. DEMOCRATIC
3. INDEPENDENCE PARTY
4. LIBERTARIAN PARTY
5. GREEN PARTY
6. PARTIES ALL THE SAME/NO DIFFERENCE-[VOLUNTEERED]
7. TEA PARTY-VOLUNTEERED
8. NONE-volunteered
9. DON'T KNOW
10. REFUSED

Q: Q4DAYTON

T:

Now, here are some different questions. How would you rate the overall performance of Mark Dayton as Governor? Would you rate his performance as excellent, pretty good, only fair or poor?

T: 6 10

1. EXCELLENT
2. PRETTY GOOD
3. ONLY FAIR
4. POOR
8. DON'T KNOW
9. REFUSED

Q: Q5OBAMA

T:

How would you rate the overall performance of Barack Obama as President?
Would you rate his performance as excellent, pretty good, only fair or poor?

T: 5 10

1. EXCELLENT
2. PRETTY GOOD
3. ONLY FAIR
4. POOR
8. DON'T KNOW
9. REFUSED

Q: Q62012EL

T:

If the 2012 presidential election was held today with Barack Obama being the Democratic Candidate and Michele Bachmann being the Republican Candidate, would you vote for Obama or Bachmann?

T: 6 10

1. OBAMA
2. BACHMANN
3. SOMEONE ELSE [VOLUNTEERED]
8. DON'T KNOW
9. REFUSED

Q: Q72012EL

T:

If the 2012 presidential election was held today with Barack Obama being the Democratic Candidate and Herman Cain being the Republican Candidate, would you vote for Obama or Cain?

T: 6 10

1. OBAMA
2. CAIN
3. SOMEONE ELSE [VOLUNTEERED]
8. DON'T KNOW
9. REFUSED

Q: Q82012EL

T:

If the 2012 presidential election was held today with Barack Obama being the Democratic Candidate and Mitt Romney being the Republican Candidate, would you vote for Obama or Romney?

T: 6 10

1. OBAMA
2. ROMNEY
3. SOMEONE ELSE [VOLUNTEERED]
8. DON'T KNOW
9. REFUSED

Q: MNPCA

T:

Thanks, now I would like to ask you a question about the environment.
To what extent do you believe you have acted over the past year to reduce
your individual contribution to Greenhouse Gas Emissions?

Have you made major changes, some changes, or have you not made any changes?

T: 8 10

1. MAJOR CHANGES
2. SOME CHANGES
3. NOT MADE ANY CHANGES
8. DON'T KNOW
9. REFUSED

Q: IMMIG1 -----

T:

Now I have several questions about immigration.

Do you think that, in general, most legal immigrants have a
positive or negative effect on the United States?

T: 8 10

1. POSITIVE
2. NEGATIVE
3. NEITHER [VOLUNTEERED]
8. DON'T KNOW
9. REFUSED

Q: IMM2A -----

T:

For you personally, what are the benefits of allowing
legal immigrants into the United States?

[READ CHOICES 1-7; ACCEPT MULTIPLE RESPONSES]

T: 7 10

1. They provide cultural diversity
2. They take jobs that Americans don't want
3. They are low cost labor
4. They are hard working people
5. They strengthen our economy
6. The history of this country is based on immigration
7. They add to the American melting pot
8. -----
9. OTHER [VOLUNTEERED]
10. NO BENEFIT [VOLUNTEERED]
11. DON'T KNOW
12. REFUSED

13. NO OTHER RESPONSE

Q: IMM2B -----

T:

For you personally, what are the negative consequences from allowing legal immigrants into the United States?

[READ CHOICES 1-9; ACCEPT MULTIPLE RESPONSES]

T: 7 10

1. They lower America's wage scale
2. They take jobs away from Americans
3. They lead to an increase in crime
4. They are a burden on government welfare
5. They decrease the white majority
6. They don't speak English
7. They don't pay taxes
8. They threaten our national security
9. They crowd our schools
10. -----
11. OTHER [VOLUNTEERED]
12. NO NEGATIVE CONSEQUENCE [VOLUNTEERED]
13. DON'T KNOW
14. REFUSED
15. NO OTHER RESPONSE

Q: IMMIG3 -----

T:

Do you strongly agree, agree, disagree, or strongly disagree with the following statement - "Children born in the United States to undocumented parents should continue to gain citizenship".

T: 6 10

1. STRONGLY AGREE
2. AGREE
3. DISAGREE
4. STRONGLY DISAGREE
8. DON'T KNOW
9. REFUSED

Q: IMMIG4 -----

T:

If the state of Minnesota passed a law dealing with illegal immigrants, would you approve or disapprove of allowing police to question anyone who they think may be in the country illegally?

T: 6 10

1. APPROVE
5. DISAPPROVE
8. DON'T KNOW
9. REFUSED

Q: SAMESEX1

T:

Now I would like to ask some questions regarding other topics in the state. Should the Minnesota constitution be amended to provide that only a union of one man and one woman shall be valid or recognized as a marriage in Minnesota?

T: 7 10

1. YES - AMEND
2. NO - DON'T AMEND
3. NOT SURE
8. DON'T KNOW
9. REFUSED

Q: Q53

T:

Who do you think is most responsible for the recent Minnesota budget crisis and shutdown a few months ago? The governor or the legislature?

T: 6 10

1. GOVERNOR (MARK DAYTON)
2. (REPUBLICAN) LEGISLATURE
3. BOTH [VOLUNTEERED]
4. OTHER
8. DON'T KNOW
9. REFUSED

Q: Q54

T:

Which approach would you rather see used to balance the state budget? Spending cuts or tax increases?

T: 5 10

1. SPENDING CUTS ONLY
2. TAX INCREASES ONLY
3. A COMBINATION OF SPENDING CUTS AND TAX INCREASES [VOLUNTEERED]
8. DON'T KNOW
9. REFUSED

Q: THER1 -----

T:

Thank you. Here is a different kind of question.

Please think of a thermometer that has a range of 0 to 100 degrees. I'd like you to rate your feelings toward some of our leaders and

groups who are in the news. Ratings on the thermometer between 50 and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 and 50 mean that you do not feel too favorable toward the person. If we come to a person whose name you don't recognize, you don't need to rate that person. Just tell me and we will move on to the next one. If you do recognize the name, but do not feel particularly warm or cold toward the person, you would rate the person at the 50-degree mark.

[NEVER TELL WHO THE PERSON IS OR WHAT THEY DO--YOU CAN REREAD THE NAME]
