As you may know, as of August 1 of this year St. Cloud State university will be a tobacco-free campus. Exceptions will be made in accordance with the Minnesota Clean Indoor Air Act, which will allow tobacco use in traditional Native American ceremonies, scientific studies and theatrical productions. Further, tobacco use will be permitted inside private motor vehicles on University property as long as tobacco users demonstrate respect for individuals and the environment. Which of the following courses of action regarding the SCSU smoking policy do you support:

**Thank you. Here is a different kind of question.**

**Please think of a thermometer that has a range of 0 to 100 degrees.**

**I'd like you to rate your feelings toward some terms and other groups who are in the news. Ratings on the thermometer between 50 and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 and 50 mean that you do not feel too favorable toward the person. If we come to a term you don't know or recognize, you don't need to rate it. Just tell me and we will move on to the next one. If you do recognize the term, but do not feel particularly warm or cold toward the term, you would rate the term at the 50-degree mark.**
