#### i. President and Vice President

President Potter played the video of his interview.

Last week there was a meeting introduced, the forum of Charting the Future. The meeting is open, so anyone can attend. There are 6 tasks, charged by the system for us to complete this year that have been assigned to groups on our campus. Most of them have student membership, and we are striving to get student involvement in all 6 areas. We will be sharing our work with the system office to keep the communication between campuses. The IRIS replacement will take 4 years. There are plenty of opportunities for you to learn about Charting the Future.

Questions:

Senator Bryson: What are the 6 tasks?

Speaker Potter: They are posted on the charting the future website. Of the 6, 4 are for student success, there is the scholarship campaign, and technology assessment. We are continuing work on the transferring pathways.

Senator Igale: Do you already have the time set for the meeting?

Speaker: Yes and No, we laid out the schedule, but there was a conflict, so in the email we have the first email sent out.

Senator Igale: How do you choose the students to get involved.

Speaker: President Vogl chooses them.

President Vogl: We have students for those areas.

Provost

We are just about, we hosted an event, and have received a lot of discussion from that. I framed that conversation around 4 main questions. Hopefully we can continue to have those conversations. What would it look like if 80% of our first years graduated in 4 years and 80% of our transfers in 3 years. What would the first year look like to get that to happen? What changes would we need to make in advising, academic services, and curriculum to make this happen?

What would the Husky Contact Bold Vision as he said.

Questions:

President Vogl: For you to give student input, I think I'm going to bring sections of each student to you and then we can go over these questions.

#### ii. Women's Center
