#### **II. Hearings**

a.) OPEN GALLERY I

E.A.B. Student Success – Glenn Davis and Phil

-better advising, guided pathways, and specific assigned advisers from the beginning -possibility of investing with Tech Fee in software called E.A.B.

>will be taking extreme initiative to include students

-will help with student retention

-will allow better more streamlined communication through a technological platform (i.e. sms texting from advisers computer)

-will help with awareness and identification for students who might need more attention (to help prevent students falling through the cracks)

-replaces mapworks, not D2L (advising not course management)

-see handout for more information

QUESTIONS

Chair Shelley: will we be able to access through D2L?

Blocked, because owned through state, proprietorship issues

Senator Schmit: for two way communications, is it opt-in?

Yes, especially with privacy. A conversation will need to be had with adviser and student.

Chair Lura: Would the EAB only be used for currently enrolled students, or students in the enrollment process? Yes, soon as a student is admitted to SCSU issued a Tech ID. Draft of transition plan to help with

seamless transition as well, EAB seen to help facilitate that communication.

Follow Up: any MN State schools using it?

No other MN State school is using it, but there are other programs being used that are similar. Senator Holm: will all teachers be required to use EAB?

Working to promote EAB and a plan/strategy with helping faculty get on board.

Follow Up: have you interviewed faculty that are currently here?

Had a series of presentations in the Fall that were well attended, but have not specifically interviewed/asked all faculty.

Senator Aubol: what is the training for faculty like?

Putting a team of people in place to handle the training piece. Faculty to faculty communication, superusers to help pass on information on how to use. (the super-user model)

#### **Corie Beckerman – Student Health Services Update**

-to provide high quality, low cost health services as well as helping students to become informed health care consumers, student fee funded.

-Working on doing college student health survey, within the next month

student health advisory committee, all can be involved. Relay for life event in March.

-Highlights: additional pharmacy hours, and continued work on Eastman. International Studies policy requiring exam recommended to use health services and good feedback so far.

-Began screening for intimate partner violence

-increased Facebook presence, current initiative is importance of sleep

-flu shots, seeing some influenza, not too late for flu shot

-pharmacy open every day at noon, hired pharmacy technician. Ability to text if prescription is ready, as well as automatic refill.
