Dear Student,

Welcome to St. Cloud State University. There are thousands of schools across the country and you chose SCSU for a reason. While you are here you will meet many new people, have new experiences and learn an incredible amount about your world and yourself. But no school is perfect. Every year at every school, students experience issues like sexual assault, dating violence, stalking, discrimination and racism. Our university is committed to providing an open and safe campus environment in which you can explore your academic and social aspirations. But we need your help to make these things happen less and less.

As a part of that goal, you are required to complete the *Respect and Responsibility* two-part program during your first semester. Part One, a program on preventing gender violence called *Not Anymore* is entirely on-line. Part two is a one hour in-person workshop called *Community Through Diversity*.

Please read the following information carefully to avoid a hold on your registration.

**Part One: Not Any More**

**Course Instructions**

You are **required** to complete Part One by **September 7th, 2015**. At that time, if Part One is not completed, a hold will be placed on your registration until you complete the course. Since there are many activities, classes and events to attend once you arrive on campus, you may want to complete the program before arriving because you will only have 10 days to complete it after classes begin.

**Step 1:** Log on to the *Student Success™* at:

URL [https://www.studentsuccess.org/sc14/notAnyMore/](https://www.studentsuccess.org/sc14/notAnyMore/)

**Step 2:** Under “First Time User,” enter the following School Access Code: **1425683**

**Step 3:** Follow the instructions provided to complete the course. You will be asked to enter your Student ID number. This is the **8-digit number** on your *Student ID card*, not your Star ID. You will also be asked to enter your *SCSU Huskynet e-mail address*. **You can only use your Huskynet e-mail address.** Create a password and keep this information until you complete the course. It is best to complete the course all at one time. However, you can leave and re-enter the course as a “returning student”, should you be interrupted, using the password you created. Most students complete the course in approximately 90 minutes.
You must complete and pass the post-test by at least 85%. Test questions will appear throughout the program as well as at the end.

**Part Two, Community through Diversity**, is coordinated through the Office of Student Life and Development. You will receive a notice in your Huskynet e-mail account from their office the first week of classes with instructions on how to register for the in-person workshop. If you have not received information or have questions about this workshop, please contact their office at 320-308-3111, or email respect@stcloudstate.edu.

**Questions? Contact the coordinating office for specific questions:**

**Part One** – Contact the Women’s Center at 320-308-4958.

**Part Two** – Contact the Office of Student Life and Development at 320-308-3111.

**Frequently Asked Questions about Part One.**

**Why do I have to do this?**
The problem of sexual assault, dating violence and stalking on college campuses and in our communities demands action. We believe that an educated student body is in all of our best interests and can help reduce this nationwide epidemic. We need everyone to be involved, students, faculty, and staff, and to intervene as bystanders when someone is being hurt. Therefore, SCSU requires all new students to complete an on-line educational course called Not Anymore, through the Student Success™ website.

**What do I need to know about the course?**
- The course consists of taking a pre-test, watching a series of educational videos on preventing sexual assault, dating violence and stalking, and then completing the post-test. We are able to track students’ progress and post-test grades.
- A few students believe they can just run the videos and take the test. These students end up having to rerun the videos and retake the test several times in order to pass, consequently, taking much longer than if they had just been attentive the first time through.
- You must pass the post-test with a score of 85% or higher. You can review the material and retake the test until you pass by 85% or higher up to two times.
- If you are unable to access this course from a home computer, you can complete the course at a computer in the SCSU Miller Center (please bring headphones).
- The course usually can be completed in less than two hours.
- If you are a non-traditional student, we would appreciate any feedback you have that would make this course more pertinent for non-traditional students to help shape future format designs. **However, the information about sexual violence, dating**
violence and stalking is important for everyone no matter what your age, gender and life experience. In addition, our younger students need informed role models.

How do I get a Huskynet e-mail address?
Go to https://www5.stcloudstate.edu/its/activateaccount/default.asp and follow the instructions on this page. Check this e-mail regularly as important information from the University will be sent via Huskynet e-mail.

If you have any technical difficulties, please use the HELP button within the program.

If you are a survivor of sexual violence and would prefer to schedule an alternative individual meeting with an advocate, please contact the Women’s Center at 320-308-4958 for information on this option or email Lee LaDue at leladue@stcloudstate.edu.

We thank you in advance for your diligent participation in this important prevention program and being part of a caring community.
